

A world map showing the distribution of various plant families across different continents. The map is color-coded by vegetation type, with green for forested areas and brown for arid/semi-arid regions. Six semi-transparent blue boxes are overlaid on the map, each containing a list of plant families categorized by 'Traits' and 'Genes' for a specific region.

Traits:
Orchidaceae
Lamiaceae

Genes:
Myrtaceae
Frankeniaceae

Traits:
Orchidaceae
Lamiaceae

Genes:
Asteraceae
Rosaceae

Traits:
Asteraceae
Orchidaceae

Genes:
Asteraceae
Piperaceae

Traits:
Gesneriaceae
Orchidaceae

Genes:
Hypnaceae
Sematophyllaceae

Traits:
Acanthaceae
Apocynaceae

Genes:
Acanthaceae
Asteraceae

Traits:
Acanthaceae
Dryopteridaceae

Genes:
Myrtaceae
Araceae

Traits:
Rubiaceae
Orchidaceae

Genes:
Euphorbiaceae
Dicranaceae
